

WHY BUY FROM AN AUTHORIZED PARTNER?

BE FULLY COVERED BY MANUFACTURER WARRANTY

An authorized Poly partner like VoIP Supply fully handles your returns and RMAs. VoIP Supply also offers advance replacement services for any failed hardware component.

TAKE ADVANTAGE OF PROMOTIONS

Poly provides decent promotions such as rebate incentives from time to time. As an authorized partner of Poly, VoIP Supply is able to help you take full advantage of them and save more.

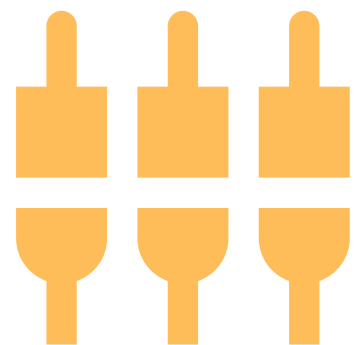

AVOID DEFECT PRODUCTS

Some unauthorized sellers sell “unused products” rather than “new products” and these Poly devices can come missing key accessories or components required for your region to ensure the product will work as needed.

ENJOY FREE CONFIGURATION SERVICES

An authorized Poly partner like VoIP Supply provides FREE configuration services on devices they provide. If you are using BYOD (Bring Your Own Device) devices, there’s usually a configuration fee.

GET FULL SUPPORT

Authorized Poly partners have the necessary qualifications and training, and have access to Poly resources, sales and technical personnel to offer you fully support and assistance. For BYOD devices, however, there’s no guaranteed troubleshooting and support.
