

## Over-the-head-band

### Attach the headset and wear the headset

1. With the headset at a vertical angle (microphone pointing down), insert the headset earpiece into the headband.

2. Rotate the headset to a horizontal direction until it holds into place.

3. Adjust the headband to fit your head.

4. Rotate the angle of the headset until the microphone is pointing towards your mouth.

- Make sure the protruding bump is pointing towards your mouth when placed on your ear. The protruding bump on the earbud holds the headset securely in your ear.
