## ULTRALIGHT DESIGN. OUTSTANDING IP TELEPHONY SOUND QUALITY

The Jabra GN2100 IP is part of our award-winning headset series for business and contact center professionals using IP telephony. In fact, many users say that its excellent sound quality gives them the feeling they're having a "face to face" conversation. Moreover, the headset's sleek profile and lightweight, ergonomic design provide a unique combination of style and comfort.

- Excellent wideband sound quality - 80-15,000 Hz (receive), 100-4,000 Hz (speak)
- Exclusive lightweight design
- Award-winning headset design
- Noise-canceling microphone for the noisy environments

Jabra GN2100 Series also features our PeakStop™ technology, which protects users from harmful sound spikes and other loud noises over 118 dB SPL (RMS). And the large, ultra-soft leatherette ear cushions and our popular lightweight headband make it as comfortable to wear as it is safe to use.

The Jabra GN2100 Series is also available in a variant for use with conventional desk telephones.

Jabra GN2100 IP Mono

Jabra GN2100 IP Duo

## FEATURES & BENEFITS

FEATURE	BENEFIT
Ultra lightweight design	Greater calling comfort throughout the day – a must for busy professionals who spend a lot of time on the phone
Strong design: <ul style="list-style-type: none"><li>- Lab tested boom-arm construction</li><li>- More than 1,000,000 units used worldwide</li></ul>	High-quality construction ensures long useful lifetime
Lightweight, ultra-soft leatherette ear cushions	All-day calling comfort, plus improved acoustic coupling so customers are clearly heard the very first time
High-quality noise-canceling microphone (choice of noise-canceling or SoundTube with Jabra GN2100 IP)	Noise-canceling technology filters out unwanted background noise so there is less need to isolate users in individual cubicles. Better outbound communication with less “office” noise helps personalize service
Adjustable flex boom	Sleek and stylish design is as elegant as it is practical
PeakStop™ technology – max. 118 dB SPL (RMS)* according to UL-60950 standards	Protection against sudden, loud noises coming across the telephone network
Optimized frequency response: 100 – 4,000 Hz	Superbly clear wideband audio for IP telephony
Connectivity: <ul style="list-style-type: none"><li>- Quick Disconnect (QD) plug</li><li>- Optional USB adapter</li></ul>	Future-proof design lets users upgrade from traditional desk telephony to IP hard phones. PC-based IP-telephony (softphones) is easily accomplished using our optional USB adapters
