

VoIP V3 Indoor Emergency Intercom

CyberData

The IP Endpoint Company

Newly designed with a faster processor allowing for more capabilities, the CyberData SIP-enabled VoIP V3 Emergency Intercom is perfect for settings where either an emergency panic button or two-way priority communications are required.

One of many within our line of PoE powered VoIP signaling and communication endpoints, the CyberData SIP-enabled VoIP V3 Emergency Intercom has been installed in settings requiring panic buttons and mass notification such as nursing care facilities, schools and universities, daycare facilities and more, proving this device is truly a versatile, cost-efficient alternative to old analog intercoms.
