

# Spectralink Butterfly

Black and White Options – Same Great Features

The Spectralink Butterfly is a trendy and lightweight DECT handset designed especially for office environments to fulfill your basic wireless telephony needs. The Spectralink Butterfly combines usability and stylish design with high quality voice. The Butterfly is designed especially for office environments that need the most important features and functionalities within basic voice and messaging.

The handsets are available in black and white with the same great feature sets. Use either color option to support your business identity, distinguish employee groups, and match with your office décor and color theme.

## Business Benefits

The Spectralink Butterfly has an intuitive and easy-to-navigate menu structure and a four-way navigation key with user-friendly icons.

Employees can move around the company freely while constantly being accessible. This helps shorten response times and streamlines the daily workflow as information can be delivered to the right person exactly where and when it is needed. With the smartly combined desk stand and belt clip it is easy to carry the handset around while keeping your hands free to focus on the work at hand.

## BENEFITS

- Certified and tested with market leading PBX
- User-friendly wireless handset designed with basic functionalities for employees in office environments
- Easy to implement into the daily workflow as the handset is easy to operate and has a simple and intuitive menu structure
- Increases efficiency as employees have better and faster access to the information they need
