Expansion Module EXP40

Quick Reference Guide

www.yealink.com

Basic Configurations

The EXP40 supports 40 DSS keys in two screen page. Each page displays 20 DSS keys. You can press **[←2]** or **[→2]** to switch between the two pages and use your desired DSS key. You can assign a feature to a DSS key via phone user interface. Press the desired DSS key of EXP40 for about 5 seconds, the phone LCD screen will prompt the setting of this key. The following sections provide you with detailed instruction of assigning some frequently used features to the DSS keys via web user interface.

Conference

The conference key allows you to set up a conference with a third party when already in a call.

1. Click on **DSSKey->Ext Key**.
2. In the desired DSS key field, select **Conference** from the pull-down list of **Type**.
3. Enter the phone number or extension of the destination party in the **Value** field.
4. Enter the desired value in the **Label** field.
5. Click **Confirm** to accept the change.

Forward
