

PIVOT by Spectralink Call Server Interoperability

The tables below list the call servers that have been tested as interoperable with the Spectralink™ 87-Series handsets. Only products listed in the table have been tested for compatibility and acceptable performance with PIVOT handsets. Spectralink does not recommend or support deployments with products not listed in the table. This document will be updated as additional call servers are tested. Interoperability documents are found on the [Spectralink 87-Series Support](#) page.

Note: All software is subject to significant change from version to version. Only those configurations listed in this document are supported by Spectralink.

Direct Integration

The following platforms have been tested with Spectralink 87-Series models.

Partner	Platform	PBX Software Version
Avaya	Communications Server 1000	7.5, 7.6
	Aura	6.1, 6.2, 6.3
	IP Office	9.0
