Auxiliary Analog Speaker

CyberData
The IP Endpoint Company

This Auxiliary Analog Speaker is an option for the CyberData SIP speaker to extend the coverage area.

When connecting this Auxiliary Analog Speaker to the SIP speaker, the total speaker wattage is the same. However, by adding this Auxiliary Analog Speaker, additional coverage can be realized.

This Auxiliary Analog Speaker can be mounted with the same mounting hardware options available for the SIP Speakers.

Features

- Low cost 2nd speaker option for the CyberData SIP Speaker
- Mounting hardware supplied
- Choice of colors
