3.52 [89.4]

Features

Speaker Link/Activity (Green)

The green Link/Activity LED comes on immediately to show that there is a good network connection, and then blinks to show network activity.

Ethernet Port

RTFM Switch
To broadcast a device's current IP address, use a paper clip or a similar instrument to press and release the RTFM switch within a five second window.

To restore a device's factory default settings, press and hold the **RTFM** switch for more than five seconds.

Network 100 Mb (Yellow)

The yellow 100 Mb LED is illuminated when the network 100 Mb link to the speaker is established.

Connecting Power

802.3af Compliant PoE Switch

Non PoE Switch

PoE Injector
(Part #010867)

Mounting

Channel
Flag Nut

Remove the Speaker Grill out of the Speaker Housing:

1. Turn and line up at least two of the flag nuts with their channel.

2. Grasp the speaker grill with your index, middle, and ring fingers.

3. Place your thumb over the flag nut. At the same time, slowly push out the speaker grill.

Joist
Eyebolt
Ceiling Tile

Seismic Tether Bracket (Pre-Installed)
Speaker Assembly

Tools Required for Installation:

- (1) Sheetrock Saw or Drywall Cutter
- (1) #2 Phillips Screw Driver or Powered Screw Driver with #2 Phillips Hex Bit

To mount the speaker:

1. Loosen the Four (4) flag nuts with a #2 Phillip Screw Driver or Powered Screw Driver.

2. Use the TEMPLATE on the back of this document to cut a hole in the wall* or ceiling.

   *Skip the seismic tether mounting when mounting it to the wall.

3. Tighten the Four (4) flag nuts with a #2 Phillip Screw Driver or Powered Screw Driver.

4. Replace the speaker grill to the speaker housing.
