Product name
VTech CareLine SN5107 Amplified Accessory Handset with Big Buttons & Large Display for VTech SN5127 & SN5147 Senior Phone Systems

Product description
With features that make calls easy to dial and hear, the VTech CareLine SN5107 Amplified Accessory Handset with Big Buttons and Display is a senior-friendly phone system boasting big buttons, 50dB audio assist and smart call blocker. Increase the volume of incoming sound by up to 50 decibels to make conversations easier to hear and understand on this amplified cordless phone. The extra-loud 90dB ringer makes it easy to hear incoming calls throughout your home. Plus, a light on the top of the senior-friendly handset flashes when the telephone rings, signaling an incoming call. This feature is especially helpful for those who are hearing impaired.

With the VTech CareLine SN5107 Amplified Accessory Handset with Big Buttons and Display, you can say goodbye to unwanted calls. Robocalls on your landline are automatically blocked from ever ringing through—even the first time thanks to the smart call blocker. You can also permanently blacklist up to 1,000 numbers with one touch.
