

BlueParrott B650-XT

INTRODUCING OUR WIRELESS HEADSET FOR CLEAR CALLS WITH ACTIVE NOISE CANCELLATION

Be heard on the highway

Calling from your cab? With B650-XT, even if you're right in the middle of a busy highway, windows down, radio blaring, they'll still hear you loud and crystal-clear. The powerful ultra-noise-cancelling microphone removes an incredible 96% of background noise from your end of the call*. Giving you the freedom to call anyone. Anytime. Anywhere.

Noise is cancelled

Ok – so *they* won't hear the highway, but what about you? Powerful Active Noise Cancellation (ANC) works to remove the ambient noise from your surroundings, so you can give them your full attention without having to crank up the volume. And if you really want to get lost in a more immersive entertainment experience, the B650-XT is able to convert into the ultimate noise-cancelling stereo headset (2nd earcup available as accessory).

Keep on truckin'

Need to stay connected even on the longest trucking routes? With up to 36 hours of talk time, you can drive for a few hours, touch base on a call with your boss while the truck is loaded, drive another stretch of road, call a few people before bed, and still have enough battery to do it all again tomorrow. And with up to 300 ft / 100 m of wireless range, you can leave your phone behind and get out to stretch your legs or check the rear tires of the truck pre-trip, without worrying about your connection dropping.

Tough and durable

When you're on the road, you don't always have time to carefully tuck your headset away. That's why B650-XT is built to withstand a bit of rough treatment. IP54-rated protection from dust and water makes this sturdy headset the ideal cab companion.

Personalize your experience

Keeping your hands and eyes on the road is vital, which is why you can program the BlueParrott Button™ for instant access to your most-used feature. Speed dial your boss, mute your mic, or Push-to-Talk with your team, without fumbling around for your phone.

Just talk

For when you really need to keep your hands on the job, B650-XT lets you use your voice to activate the headset, control your calls, GPS directions, music, voice assistants, and more. Talk with friends or search for your favorite song, all without lifting a finger.

HOW TO USE

Great comfort and secure fit with padded headband and large, cushioned leatherette ear cup

BlueParrott Button™ can be programmed using the BlueParrott App for fast access to key features, including mute, speed dial, Push-to-Talk, and more
