

# The all in one for everyone

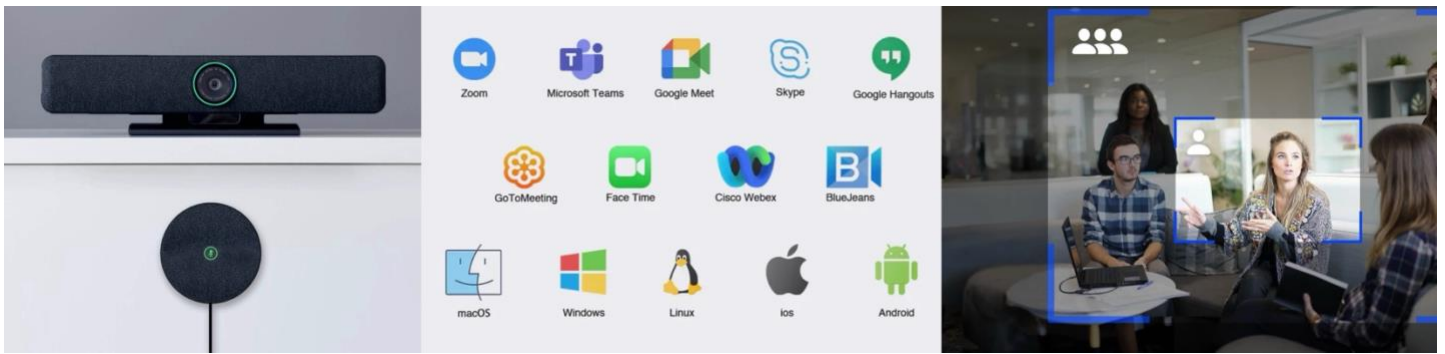

## DATASHEET

### iContact Conference Camera

The iContact Conference Camera™ uses AI auto-framing to keep every participant in view, showing more people and less room to recreate the focus and connection of in-person conversations. Its compact all-in-one design for everyone delivers plug-and-play simplicity, working seamlessly across hardware and software so meetings start instantly, anywhere.

With 4K UHD clarity, advanced noise-canceling audio, and an optional low-cost 360° table microphone, the iContact Conference Camera ensures natural, inclusive, and impactful collaboration in every room.

- **AI Auto-Framing Centers the group so you see more people and less room, enhancing focus and connection.**
- **4K Ultra-Wide View** 120° field of view captures every participant even in smaller rooms.
- **Speaker Tracking AI** keeps the active speaker in frame, creating a natural, face-to-face feel.
- **Noise-Canceling Mics** Four-microphone array with 5m range ensures clear, uninterrupted calls.
- **All-in-One for Everyone** Universally compatible across platforms and devices for effortless collaboration.

<p><b>AI Enhanced Communication</b></p>	<p>Research shows that people engage more effectively when they can clearly see others in a conversation. Tighter framing that keeps participants—not empty space—in view increases focus, connection, and trust. Studies link group visibility to better collaboration, more balanced participation, and stronger impressions of teamwork. In fact, inclusive framing has been shown to reduce distraction, improve memory retention, and boost overall meeting productivity. The iContact Conference Camera™ leverages AI auto-framing to ensure you see more people and less room—making virtual meetings more engaging, natural, and impactful.</p>		<p><b>Simple and reliable</b></p>	<p>The iContact Conference Camera keeps setup effortless and reliable with dual connectivity. A single USB-C cable enables instant plug-and-play use with your laptop, while HDMI output connects directly to room displays. With both options built in, meetings start quickly and run smoothly without extra adapters or complexity</p>		
<p><b>Video</b></p>	<p>Image Sensor</p>	<p>4K ePTZ camera with advanced AI face-tracking and auto-zoom functionality for natural framing</p>	<p><b>General</b></p>	<p>Dimensions</p>	<p>15.7 × 3.6 × 3.0 in (400 × 92 × 75 mm)</p>	
	<p>Field of view</p>	<p>Ultra-wide 120° lens captures every participant in the room with clarity</p>		<p>What's in the box</p>	<p>iContact 4K Video Bar Camera Remote Control AC Adapter 5 m USB Cable Quick Installation Guide 5 m Extension Microphone (Optional)</p>
